

"CASCARETS" FOR SLUGGISH BOWELS

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now. Turn the nasals out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken. Adv.

Japanese Clock Competition. Consul Albert W. Douglas, Fuzhou, China, reports the receipt of several inquiries of late concerning the introduction of American clocks of a certain kind. One enterprising Chinese firm had photographs made of five different clocks for which a fairs market is found throughout this locality. It is likely that all five clocks had a good sale in China generally.

Four of the five clocks shown in the photograph are of Japanese manufacture, every one of the clocks being a distinct style of the old American-made clock sold in the far East many years ago. The enterprising Japanese manufacturer has decided the market throughout China with his wares. Still, there is no reason why the American manufacturer should not get a good share of the clock trade, providing he can compete with the cheaper clock of other manufacturers.

He Knew. Ben Blewett, recently visited the Benton school and was much interested in listening to a primary class recite physiology which happened to be on the subject of the stomach. After the recitation Blewett gave a short talk on the subject and among other things said:

"And remember, children, that the stomach is one of the busy organs of the body that has no rest in it." At this statement he noticed a troubled look on the face of a bright little red-haired boy and said kindly: "Why, Francis, what's the trouble? Did you think there were bugs in the stomach?"

"Some people have Mr. Blewett. Our baby's got a bug in his stomach, all right. He swallowed the dollar dad gave me for Christmas last night."—St. Louis Globe-Democrat.

New Bandit Style. Bill—A mail and express auto, traversing the wilds of Colorado, has a hand-proof cage in the rear for valuables.

Jill—No good. One of those bandit parties with their Zeppelins will come along and lift auto, cage, valuables and everything.

Looked That Way. "You know every boy in this country has a chance to be the president of the United States," said the schoolmaster.

"Oh, I know what you're driving at," said the bright boy: "you want me to be for preparedness?"

They Didn't Ask. Something is always happening to give a fresh start to the tipping question. A visitor at a country club asked the waiter who had served him if he were permitted to take a tip.

"It is not allowed here, sir," was the answer.

"Where, then?" asked the visitor, "did you get all that silver change I just saw you counting?"

"Oh, that," the honest fellow replied, "was given to me by gentlemen who didn't ask if I could take tips."

Lawyer Had His Own Reasons for Discontinuing the Examination of the Witness.

Many years ago a trial was in progress in San Francisco, and counsel for defendant was cross-examining a witness for plaintiff. An earthquake shook the chandeliers and dislodged a portion of the ceiling. Jurors, witnesses and spectators started for the door, but the judge checked the exodus of the lawyers by retaining his seat and his composure and exclaiming: "Gentlemen, gentlemen, flat justitia ruat ceiling." The seismic disturbance being over the crowd returned.

"You can proceed with the cross-examination of the witness," said the judge to the counsel for the defendant. "Pardon me, your honor," was the reply, "but after the late exhibition of the displeasure of the Almighty at the trial this witness was telling, I do not care to further invoke divine wrath. I will ask him no more questions."—Case and Comment.

Financiers Still Working. Everybody in the financial district seems to be on the job these days. As a rule, the moneyed men of Wall street have been in the habit of taking a vacation twice a year. In the winter they summer at Palm Beach and in the summer they winter in Switzerland or at some health resort in Europe. Last year was an exception on account of the new situation in the winter created by the war and the active bull market of the summer.

At the present time the financial situation is keeping the men of finance in New York, although their families may be in the South or California. There is no summer away from the stock ticker now, and while it is performing gymnastics. There is too much at stake.—New York Times.

Important to Mothers. Examining carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Watson* in Use for Over 30 Years.

Children Cry for Mother's Castoria. Some years ago in a certain factory town, which was not used to the bright, clean, white, and healthy-looking children, these children were sent to the factory to work. The children were sent to the factory to work. The children were sent to the factory to work.

An Experiment. "John," said the thoughtful woman, "let your overcoat, it's wet and muddy." "I haven't any overcoats," "Take an umbrella, anyhow." "I haven't an umbrella." "At least you'll wear an overcoat." "Right to lawyers."

Willing to Oblige. One day while a physician was out in the suburbs in his automobile he discovered that he needed some lubricating oil for his engine. He drove up to a farmhouse where a small boy was playing.

"Son," he called, "run in and ask your mother if she has any lubricating oil or motor oil will do, if she has that."

"Ma ain't got no motor oil or nothing," but she said if you would wait a few minutes she would fix you up a dose of salts."

Their Effect. "The Germans in Belgium are pursuing the same industry once so popular in this country."

"In what way?" "They are raising Belgian babies."

Innovation. He—I always make it a rule to never speak unless I know what I'm talking about.

Fair Warning. "My dear," said Mr. Meeker at breakfast the other morning, "what would you do if I were one of those husbands who get up cross in the morning and slam things around and kick up a row just because the coffee happened to be cold?"

"John," replied his better half, "I wouldn't do a thing but make it hot for you."

A GRATEFUL ACKNOWLEDGMENT. Mr. F. C. Case of Welcome Lake, Pa., writes: "I suffered with Backache and Kidney Trouble. My head ached, my sleep was broken and unrefreshing. I felt heavy and sleepy after meals, was always nervous and tired, had a bitter taste in my mouth, was dizzy, had floating specks before my eyes, was always thirsty, had a dragging sensation across my loins, difficulty in collecting my thoughts and was troubled with shortness of breath. DODGE'S KIDNEY PILLS have cured me of these complaints. You are at liberty to publish this letter for the benefit of any sufferer who doubts the merit of DODGE'S KIDNEY PILLS."

Fifteen hundred Missouri suffragists claim that they will have a surprise to spring when the national Democratic convention meets.

His Chivalry. "I've got fourteen of the poorest children you ever laid your eyes on," boasted Mr. Gap Johnson of Rumpus Ridge.

"Why, shucks, Gap?" remonstrated a friend, "I heard your wife tell you and woman teller that there was fifteen of 'em."

"Aw, well, maybe so, Tennyrate, what my wife says goes. I wouldn't make her out a liar, just for a child or two!"—Kansas City Star.

Evidence at Hand. "It is said," remarked the boarder who reads the scientific notes in patent medicine almanacs, "that the scanty garments worn by the savages account for their unusual longevity."

"I don't doubt it," rejoined the old bachelor at the pedal extremity of the mahogany, "just look at the great age attained by our ballet girls."

Dye Problem Solved. American dye works are now turning out coal-black colors at the rate of 15,000 tons annually, and a report on the present dyestuff situation issued by the bureau of foreign and domestic commerce calls attention to the importance of the fact that these colors are being manufactured wholly from American raw material.

What He'd Like. Church—An unusual dinner was recently given in Toledo. Each guest cooked his own food by electricity.

Gotham—I'd rather enjoy that, for they'd be so tired after their exertions no one could make an after-dinner speech.

Colds Make Backs Ache
MORE aching backs, more kidney troubles come in March, than in any other month. Slushy sidewalks, dampness, raw winds and sudden changes cause chills and colds. And chills or colds tend to hurt the kidneys. It is good sense to use a kidney remedy when recovering from a cold and at any time when suffering from a lame back, sharp pains when stooping or lifting, dizzy spells, irregular or annoying kidney action, and a run-down, nervous state.

Don't delay and take a chance of getting dropsy, gravel, Bright's disease or some other serious kidney disease. Use Doan's Kidney Pills, the best-recommended, special kidney remedy. All over the world grateful people frankly praise Doan's.

Here's What Illinois People Say:
Benjamin F. Bellamy, Vienna, Ill., says: "My back was sore and lame and I could hardly work. I was exposed a great deal and subject to faring and falling and I believe that caused the backache. Every time I took cold, the trouble came on. Two or three boxes of Doan's Kidney Pills relieved me and I haven't been troubled since."
